ASSOCIATION

Measure Set: Alignment with Attributes

The Purchaser Business Group on Health’s (PBGH) California Quality Collaborative (CQC) has articulated attributes of advanced primary care, which result in high quality, high value primary care with patients at the center of every interaction.

To help identify practices having implemented these [attributes](#), CQC, the Integrated Healthcare Association and stakeholders defined a measure set focused on patient health outcomes and experience of care.

Quality Domain	Measure	NQF ID Population		Attributes of Advanced Primary Care				
				Person & Family Centered	High Value	Team Based & Collaborative	Accessible	Coordinated & Integrated
Health Outcomes & Prevention	Asthma Medication Ratio (AMR)	1800	Pediatric/ Adult			●		●
	Breast Cancer Screening (BCS-E)	2372	Adult	●		●		●
	Childhood Immunization Status Combo 10 (CIS-E)*	0038	Pediatric	●		●		●
	Colorectal Cancer Screening (COL-E)*	0034	Adult	●		●		●
	Controlling High Blood Pressure (CBP)*	0018	Adult			●		●
	Glycemic Status Assessment (GSD) HbA1c Poor Control (>9%)*	0059	Adult			●		●
	Glycemic Status Assessment (GSD) HbA1c (<8%)*	0575	Adult			●		●
	Immunizations for Adolescents (Combo 2) (IMA-E)	1407	Pediatric	●		●		●
Patient Reported Outcomes	Depression Screening and Follow-Up for Adolescents and Adults (DSF-E)	–	Pediatric/ Adult	●	●	●	●	●
	Depression Remission or Response for Adolescents and Adults (DRR-E)**	–	Pediatric/ Adult	●	●	●	●	●
Patient Safety	New measures are being considered							
Patient Experience	New measures are being considered							
High Value Care	Emergency Department Visits	–	Pediatric/ Adult		●		●	●
	Inpatient/Acute Hospital Utilization	–	Pediatric/ Adult		●		●	●
	Total Cost of Care	1604	Pediatric/ Adult		●			

* Priority measures for stratification across race, ethnicity and other variables by Covered California and/or the National Committee for Quality Assurance (NCQA).

** A phased approach will be used for organizations not currently able to report.

Measure Set: Industry Alignment Crosswalk

The Purchaser Business Group on Health’s (PBGH) California Quality Collaborative (CQC) has articulated attributes of advanced primary care, which result in high quality, high value primary care with patients at the center of every interaction.

To help identify practices having implemented these [attributes](#), CQC, the Integrated Healthcare Association and stakeholders defined a measure set focused on patient health outcomes and experience of care.

The Advanced Primary Care measure set is summarized in the table to the right, highlighting each of the measures for which providers are compensated by the major payers in California.

Quality Domain	Measure	NQF ID Population		Industry Alignment			
				Commercial ¹	Medi-Cal ²	CMS ³	DMHC ⁴
Health Outcomes & Prevention	Asthma Medication Ratio (AMR)	1800	Pediatric/Adult	●	●	●	●
	Breast Cancer Screening (BCS-E)	2372	Adult Pediatric	●	●	●	●
	Childhood Immunization Status Combo 10 (CIS-E)*	0038		●	●	●	●
	Colorectal Cancer Screening (COL-E)*	0034	Adult	●	●	●	●
	Controlling High Blood Pressure (CBP)*	0018	Adult	●	●	●	●
	Glycemic Status Assessment (GSD) HbA1c Poor Control (>9%)*	0059	Adult	●	●	●	●
	Glycemic Status Assessment (GSD) HbA1c (<8%)*	0575	Adult	●			●
	Immunizations for Adolescents (Combo 2) (IMA-E)	1407	Pediatric	●	●	●	●
Patient Reported Outcomes	Depression Screening and Follow-Up for Adolescents and Adults (DSF-E)	-	Pediatric/Adult	●	●	●	●
	Depression Remission or Response for Adolescents and Adults (DRR-E)**	-	Pediatric/Adult		●		
Patient Safety	New measures are being considered						
Patient Experience	New measures are being considered						
High Value Care	Emergency Department Visits	-	Pediatric/Adult	●			
	Inpatient/Acute Hospital Utilization	-	Pediatric/Adult	●			
	Total Cost of Care	1604	Pediatric/Adult	●			

* Priority measures for stratification across race, ethnicity and other variables by Covered California and/or the National Committee for Quality Assurance (NCQA). GSD HbA1c (>9%) and (<8%) are both included in 2024 to support payer tracking needs.

** A phased approach will be used for organizations not currently able to report.
