

CFHA Member Resources

CFHA supports healthcare professionals in integrating physical and behavioral health. It is our hope that the organization can be a professional home where you can network with colleagues, nurture new professional relationships, exchange information relevant to integration and collaboration, and most of all, provide an avenue where you can make meaningful contributions to the field and your community.

Membership Benefits:

Subscription to the journal *Families, Systems & Health*

CFHA members receive a digital subscription to *Families, Systems, and Health*, the premier forum for integrated care research, models, and policy.

Annual Conferences

Special Member Rate Registration Fees for CFHA conferences

- Virtual Conference in Spring 2024
 - Annual In-Person Conference in October 24-26th 2024
 - [30 Years of Integration: Innovating in the Pursuit of Healing](#)
-

Special Interest Groups (SIGs), Committees, and Workgroups

Join our Special Interest Groups, including:

- Value-Based Care
 - This workgroup meets monthly to educate its members on the cutting edge of VBC as it relates to integrated care
- Advocacy & Policy
 - This workgroup meets monthly to educate and activate members in the realm of policy and advocacy.
- Women's Leadership Group
 - This workgroup meets to provide support for women, particularly women in leadership roles.
- Health Technology
 - This workgroup aims to bring together health technology companies to bridge the gap between the marketplace and innovations in this space.
- Measurement-Based Care
 - This workgroup is working on increasing community awareness of the need for MBC.
- Primary Care Association Behavioral Health Leads
 - This workgroup is unique in that it is an outreach effort by CFHA to behavioral health leads at State Primary Care Associations (they coalesce all the FQHCs in their state). The goal is to provide a peer-oriented platform for these leads to share knowledge as well as learn best practices from CFHA.
- Just Medicine Committee
 - The Just Medicine Committee is focused on advancing the mission of CFHA to be more inclusive and equitable. This workgroup is engaged and passionate about discussing solutions to the missing pieces that this committee has identified.
- Community Conversations
 - CFHA Community Conversations provide integrated care colleagues an opportunity to engage in relaxed dialogues and voice their experiences & questions around high interest topics.

[CFHA Listserv](#)

- Use the popular CFHA listserv (Gaggle) to connect with members through email, or view past discussions.

See below for instructions

[Blogs, Podcasts, and News](#)

- Read our recent blogs, listen to our monthly podcast, and view videos on our news site.
-

[Job Posts](#)

- View the latest job and fellowship posts.
 - As a member you can post jobs or fellowships to the website for no cost for 30 days.
-

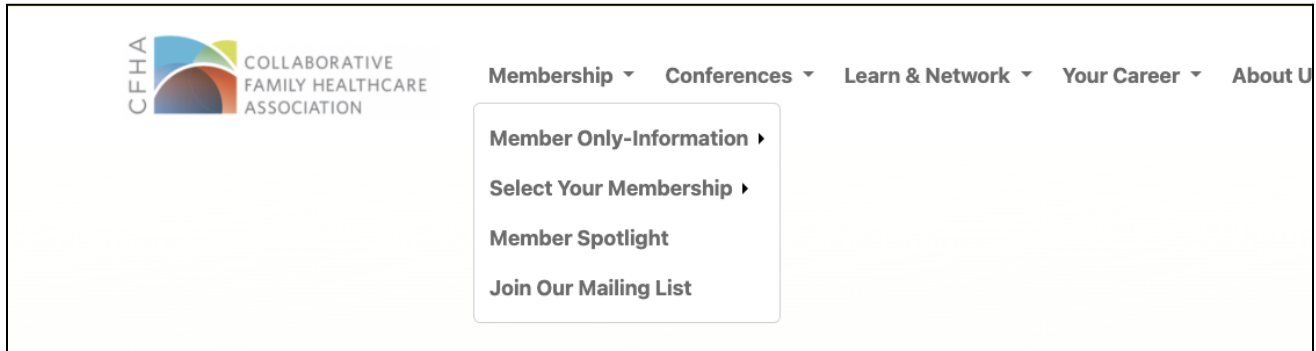

[CFHA Learns](#)

Learning Management System

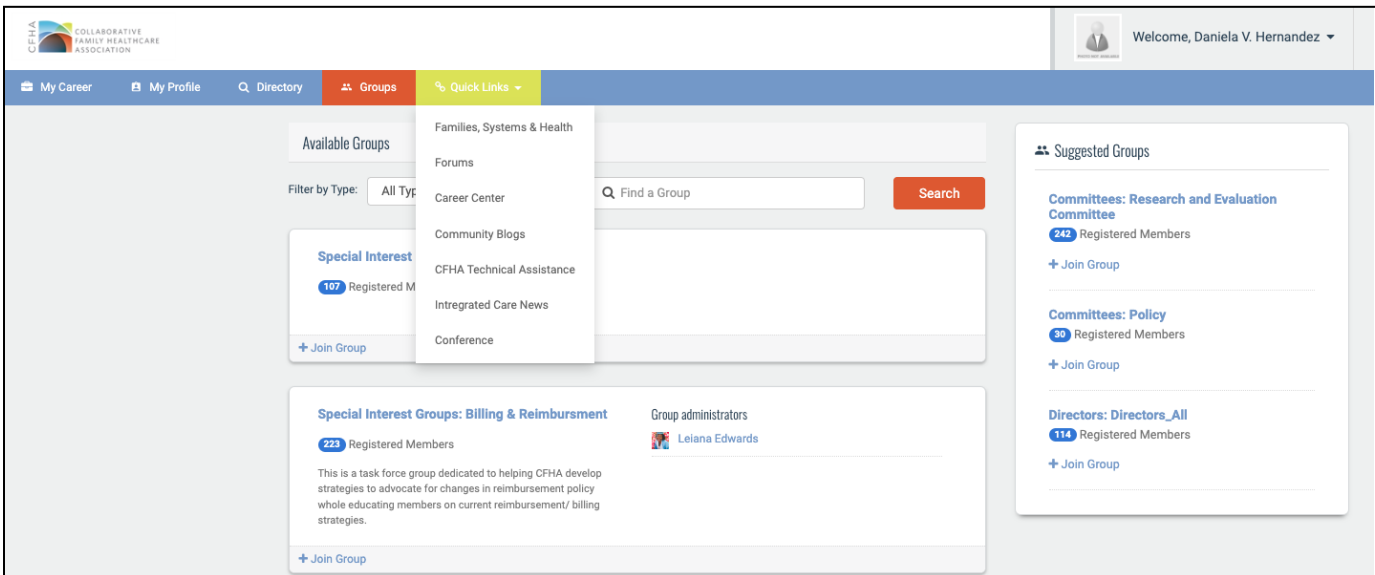

- Access to the world's first community crowd-sourced sharing and learning platform for integrated care teams.
 - All content on CFHA Learns and Shares is produced by CFHA members and vetted by the association's content committee
 - There are several courses that are free with membership. Current code is **CFHAbest150**
 - For additional support, email: hmorse.cfha.net
-

How to Access Resources

- Go to cfha.net
- Click on Membership and then Member Only-Information and then log in

- You will be able to navigate to all your resources from the Member page

How to Access the CFHA Listserv (Gaggle)

You have 2 options for how to send a message to Gaggle.

- Option 1
 - Login to the Gaggle [website](#) and send a message from the interface there.
- Option 2
 - Send an email directly from your own email inbox.
 - Email to cfha@gaggle.email to start a new thread, or reply directly to a listserv email you received.
 - Messages will go out to the entire listserv, which is made up of all our members
- Delivery settings can be modified to your needs without having to unsubscribe from the listserv. There are 3 options for delivery settings:
 - "Immediately" is the default delivery mode when added to Gaggle.
 - This will send every listserv message and response to your email inbox.
 - "Daily Digest" will send one email per day, with a summary of all of the topics that received messages that day.
 - Then you can click on any topics you are interested in to read the full message chain on Gaggle.
 - "Pause all messages" will stop any listserv messages from coming to your email inbox.
 - You can still participate in the listserv by going onto the Gaggle website.
- If you unsubscribe from Gaggle, you will no longer have access to the listserv.
 - This can always be changed in the future, but you would have to send CFHA a request to be re-added if they had unsubscribed previously.
