CalHIVE BHI Connect - February 2024

In January 2024, CalHIVE BHI team members joined the San Francisco Health Network team for the relaunch of their PCBH program. The meeting was attended by over 100 medical, behavioral health and care team members to reflect on the program and identify improvements to advance the program's goals. Learn more about the SFHN kickoff meeting and what's next for their program in this [PO Spotlight](#).

Data

As we approach the first data collection cycle of the year on April 12, we wanted to share news to streamline the program's data reporting requirements. From April 2024 (Baseline Cycle) onwards, the following measures will be required for reporting:

- Enrollment (ENR)
- Depression Screening & Follow-up (DSF)
- Depression Remission or Response (DRR)
- Diabetes Care: HbA1c Poor Control >9% (HPC)

The measures related to unhealthy alcohol use screening and follow-up (ASF) and emergency department visits (EDV) have been retired from the program.

Additionally, beginning with Cycle 1 (due July 12) we'll be asking each of you to report pilot site data based on Section 6 (Measurement Plan) of your Implementation Plan.

Further details will be shared during February's improvement advising calls and the data webinar on Thursday, March 7. [Jose Ordonez](#) will be available to address any questions you may have. Thank you for your ongoing efforts to support the collection and reporting of data.
